

# Safe-Flex

FLOOR SYSTEM

**Premium. Flexible. Safe.**

Accidents and fatigue cost organisations an average of **£8800 on non-fatal injuries** per case, per year.

**We provide Premium Flexible floor solutions to enhance the Safety of your work environment.**

WE HAVE

## Compression Flex Technology

Effective energy return developed by professionals in ergonomics and engineering.

- Surface compresses slightly then returns to its original position
- Helps to prevent pain from standing, fatigue, old injuries and varicose veins
- Domes are designed to cause imperceptible muscle contractions that increase blood flow

### LEGS

Patented structure disperses weight evenly throughout the tile decreasing strain and helping prevent injury.

### CABLE PROTECTION

All options are made with a special leg channel design to protect cables and allow them to run under the tiles. This also works just as well with Air Hoses.

WE ARE

## Premium.

The Safe-Flex Floor System provides the best anti-fatigue industrial flooring available today.

## Flexible.

Floors are customisable. Tiles come formulated or surfaced for a variety of needs, with patented lug connectors.

## Safe.

No other system has as many safety features and benefits. For us, safety means mitigation of hazards, and prevention of injury and fatigue.

The Safe-Flex Floor System is a premium, flexible and safe modular industrial flooring solution that solves challenges faced by many organizations. The patented Compression Flex construction provides the industry's top anti-fatigue support. The floor system can be custom fit or purchased in ready-made standard kits. The anti-slip varieties work in wet or even oily environments, and bevelled edges ensure that workplace slips, trips and falls are greatly reduced. The ESD and anti-microbial options provide additional environmental control. All matting options are impervious to most chemicals and are Cfls2 rating in accordance with EN 13501 part 1:2002. Tiles are sustainably produced using recycled materials and feature world class connection lugs that will last beyond the competition's. A Safe-Flex Floor System works as hard as you do to protect your most important asset—your employees.
